

SENTRY SHIELD

Network Security & Compliance Audit Report

Audit Reference ID: AUDIT-20260927-9055B9

Target Device: SECURE-ROUTER-01

Platform / Vendor: Cisco

Engine Version: Sentry Core 2.0 (Deterministic Compliance)

Security Score & Compliance Status

Overall Security Score: **100/100** | Compliance Status: **COMPLIANT (PASS)** | Audit State: **Evaluation Complete**

Severity Tier	Findings	Remediation Priority & Impact
Critical	0	Immediate remediation required (RCE, default read-write credentials, full exposure)
High	0	High priority (Cleartext management, legacy SSHv1, plaintext credentials, open ACLs)
Medium	0	Moderate priority (Disabled console logging, missing brute-force protection, time sync)
Low / Info	0	Hardening improvement (Banner configuration, logging microsecond precision)

Evaluated Framework Baselines: CIS Cisco IOS Benchmark v8, NIST SP 800-53 Rev 5, DISA STIG, ISO/IEC 27001:2022

Compliance Verdict: All evaluated baseline controls successfully verified.

Security Findings & Evidence

Zero non-compliant controls detected. Configuration satisfies all evaluated security baseline policies.

Authoritative Remediation Guidance

No active remediation actions required. Routine periodic auditing recommended.

Cryptographic Audit Verification & Registry

Audit Registry Verification ID: AUDIT-20260927-9055B9

Integrity Fingerprint (SHA-256):

06bc51c631ffee25251af33f538aac3ecc8524ed1fd7827dab3b2d914ff29026

Scan the adjacent QR code to query the Sentry Shield verification endpoint. This cryptographic checksum ensures the audit results, score, and findings have not been altered since engine execution.
